OBJECTIVES

Results-driven Frontend Engineer & UI/UX Designer passionate about crafting scalable, responsive, and intuitive web applications. Expert in React, Next.js, Vue.js, and Figma, with proven ability to translate user insights into high-impact digital experiences. Seeking to drive innovation and performance in a collaborative tech team.

EXPERIENCE

- Frontend Developer Fellowship (Remote/Structured Cohort), Tech4dev**

08/2025 – Present
Lagos

 - Engineering 3+ production-grade projects in a 6-month intensive program, focusing on JavaScript, Vue, TailwindCSS, and modern state management.
 - Collaborating with 20+ fellows and mentors to build scalable SPAs deployed to Vercel/Netlify.
 - Expected Outcome: Deliver 5 capstone project with 95%+ Lighthouse performance.
- Front-End Developer (Intern), Zenqeeth Solutions**

04/2025 – 08/2025
Kaduna

 - Engineered a responsive real estate platform using React.js & Tailwind CSS, enabling seamless buying/selling of landed properties across devices.
 - Designed and implemented 12+ reusable UI components, reducing development time by 30% and ensuring design consistency.
 - Integrated RESTful APIs with backend teams, optimizing data flow and cutting page load times by 25% through lazy loading and code splitting.
 - Collaborated in Agile sprints, delivering 3 major features ahead of schedule with zero critical bugs.
- Front-End Developer (Volunteer), Zimcrest Technologies**

03/2025 – 05/2025
Abuja

 - Built and deployed an AI-powered job application portal using Next.js & modern CSS, boosting user session duration by 40%.
 - Designed intuitive navigation flows, improving application completion rates from 62% to 89%.
 - Streamlined API data rendering, reducing server response latency by 35% via memoization and dynamic imports.
 - Conducted code reviews and debugging, enhancing site performance and cross-browser compatibility.
- Junior UI UX designer, Global Routes**

01/2024 – 02/2024
Kaduna

 - Led user research with 15+ travelers, uncovering critical pain points in flight delays, language barriers, and booking friction.
 - Created 3 personas and end-to-end user journeys, simplifying booking flow and increasing task completion by 40% in usability tests.
 - Designed responsive prototypes in Figma, resulting in 30% clearer booking steps and improved accessibility compliance.

- Published a case study on Behance, showcasing how inclusive UX reduced traveler frustration and enhanced satisfaction.

Junior UI UX designer, Frostbite Creamies	12/2023 – 01/2024
• Designed and prototyped 3+ web app interfaces using Figma & Adobe XD, focusing on usability and visual hierarchy. • Developed interactive wireframes and high-fidelity mockups, guiding developers to reduce UI inconsistencies by 45%. • Translated designs into functional prototypes using HTML, CSS, and React, enabling rapid stakeholder feedback. • Built a personal UI/UX portfolio, demonstrating full design process from research to final handoff.	Abuja

EDUCATION & CERTIFICATION

Advanced Front-end development, Fullstack Engineering, Qwasar Silicon Valley	2025
Front-end professional certificate course, IBM	2024
UI/UX design specialization, California Institute of the arts(CalArts)	2023
Urban and Regional Planning(second class lower division), Federal University Of Technology Minna, Niger state	2021 Niger state
Computer diploma, The Axioms IT Hub, Kaduna State	2019 Kaduna State

TECHNICAL SKILLS

Languages & Frameworks	Design Tools
HTML, CSS, JavaScript, Ruby, React.js, Next.js, Vue.js	Figma, Adobe Creative Suite
Data & Tools	
Microsoft Office Suite, SPSS
